

CERTIFICATE OF COMPATIBILITY

Chimera certifies that every transceiver it sells is 100% compatible with the original manufacturers specifications and products.

Cisco, 3Com, Adtran, Allied, Arista, Aruba, Brocade, Check Point, D-Link, Enterasys, Extreme, Finisar, Fortinet, Foundry, Fujitsu, H3C, HP, Huawei, JDSU, Juniper, Mellanox, MRV, Netgear, Nortel, Sixnet, Sun Microsystems, Sunrise Telecom, Trendnet, Zhone, Zyxel, Alcatel-Lucent, Redback, Linksys and Hirschmann.

CHIMERA COMPATIBILITY GUARANTEE

All our products are individually tested against the latest software and conform to the MSA standard (Multi-Source Agreement). All our electronic and electrical equipment are free from hazardous substances. We carry out regular testing with all switches, complying with the latest IOS/software releases. Our products are pre-tested measuring the laser eye on all transceivers which determines if the product accurately sends and receives information conforming to MSA specifications.

MSA specifies transceiver modules in accordance with physical dimensions, connectors, and signalling used in the module.

All Chimera products are backed by a lifetime warranty.
